Int. J. Gynecol. Obstet., 1989, 30: 419—422
International Federation of Gynecology and Obstetrics

Subject Index

Volume 30

abdominal hysterectomy, intussusception, paralytic ileus, intestinal obstruction, 279
abdominal pregnancy, conjoined twins, 73
abnormal vaginal cytology, herpes simplex virus, late pregnancy, 231
absorbable staples, peritoneal injury, adhesion formation, 361
acardiac twin, ultrasound, diagnosis, acephalic, hydrops, 179
acephalic, ultrasound, diagnosis, acardiac twin, hydrops, 179
actinomycosis, cervix, neoplasms, 283
adhesiolysis, operative laparoscopy, pelvic adhesions, infertility, 249
adhesion formation, peritoneal injury, absorbable staples, 361
age-related colonisation, infertility, endometrial flora, tuberculosis, group B *Streptococcus,* 155
AIDS, pregnancy, HIV antibody, 395
amniotic fluid, group B *Streptococcus,* vaginal colonization, delivery, new-born colonization, intrapartum cultures, 99
amniotic fluid, respiratory distress syndrome, diabetic pregnancies, phospholipids, 105
anesthesia, hypnotics, benzodiazepines-midazolam, antagonist, benzodiazepine antagonist-flumazenil, outpatient anesthesia, 69
antagonist, hypnotics, benzodiazepines-midazolam, benzodiazepine antagonist-flumazenil, anesthesia, outpatient anesthesia, 69
antenatal care, maternal health care, traditional birth attentants, 329
assessment, breech, vaginal delivery, cesarean section, 241

bacteremia, *Haemophilus influenzae,* first trimester abortion, 385
benign trophoblastic growth, hydatidiform mole, neoplasia, recurrent, gestational trophoblastic tumor, vesicular mole, 375
benzodiazepines-midazolam, hypnotics, antagonist, benzodiazepine antagonist-flumazenil, anesthesia, outpatient anesthesia, 69
benzodiazepine antagonist-flumazenil, hypnotics, benzodiazepines-midazolam, antagonist, anesthesia, outpatient anesthesia, 69
brain activity, MEG, EEG, SQUID, pre-eclampsia, central nervous system, 325
breastfeeding, Thailand, fertility, ovulation, program, guidelines, 335
breech, assessment, vaginal delivery, cesarean section, 241
breech presentation, prenatal care, developing country, health care research, perinatal mortality, twin diagnosis, 123
burns, scalds, puerperal, Wankan-Jego, Zaria, 133

cancer mortality, septic abortion, cervical carcinoma, maternal mortality, 343
catecholamines, fetal electrocardiogram, fetal monitoring, fetal anoxia, human labor, fetal cardiovascular function, 109
central nervous system, MEG, EEG, SQUID, pre-eclampsia, brain activity, 325
cervical carcinoma, septic abortion, maternal mortality, cancer mortality, 343
cervical injection, prostaglandin E_2, ripening the cervix, induction of labor, 221
cervical screening, Cytobrush®, low risk population, contraceptives, 139
cervix, actinomycosis, neoplasms, 283
cervix, prostaglandin E_2, labor, oxytocin, induction, gel, 225
cesarean section, assessment, breech, vaginal delivery, 241
colon, perforated carcinoma, peritonitis, pregnancy, 371
combined intratuerine and ectopic pregnancy, heterotopic pregnancy, 271
comparative low-dose contraceptive discontinuations, method effectiveness, complications, 165
complications, comparative low-dose contraceptive discontinuations, method effectiveness, 165
confidential enquiry, maternal mortality, medical audit, 41
conjoined twins, abdominal pregnancy, 73
contraceptives, cervical screening, Cytobrush®, low risk population, 139
cross-sectional study, menarche, Ghanaian school girls, 63
cyclosporin A, renal transplant recipient, renal allotransplantation and pregnancy, 267
Cytobrush®, cervical screening, low risk population, contraceptives, 139

delivery, group B *Streptococcus,* amniotic fluid, vaginal colonization, new-born colonization, intrapartum cultures, 99
developing country, prenatal care, health care research, perinatal mortality, twin diagnosis, breech presentation, 123
Dextran-70 (Hyskon), knot volume, suture material, tissue reactivity, surgical knots, 355
diabetic pregnancies, respiratory distress syndrome, phospholipids, amniotic fluid, 105
diagnosis, ultrasound, acephalic, acardiac twin, hydrops, 179

eclampsia, maternal mortality, Ilorin, 117
ectopic pregnancy, recurrent ectopic pregnancy, fertility, infertility, 245
EEG, MEG, SQUID, pre-eclampsia, brain activity, central nervous system, 325

endometrial flora, infertility, tuberculosis, group B *Streptococcus,* age-related colonisation, 155
endometriosis, incidence in Igbos, fertility pattern, 349

family planning, maternal child health, medical audit, 27
fertility, breastfeeding, Thailand, ovulation, program, infertility, 245
fertility pattern, endometriosis, incidence in Igbos, 349
fetal anoxia, fetal electrocardiogram, fetal monitoring, catecholamines, human labor, fetal cardiovascular function, 109
fetal cardiovascular function, fetal electrocardiogram, fetal monitoring, fetal anoxia, catecholamines, human labor, 109
fetal distress, fetal resuscitation, varicella, indomethacin, 171
fetal electrocardiogram, fetal monitoring, fetal anoxia, catecholamines, human labor, fetal cardiovascular function, 109
fetal monitoring, fetal electrocardiogram, fetal anoxia, catecholamines, human labor, fetal cardiovascular function, 109
fetal resuscitation, fetal distress, varicella, indomethacin, 171
first trimester abortion, *Haemophilus influenzae,* bacteremia, 385
first trimester abortion, uterine unification, infertility, obstetric outcome, 161

gel, prostaglandin E_2, labor, oxytocin, cervix, induction, 225
gestational trophoblastic tumor, benign trophoblastic growth, hydatidiform mole, neoplasia, recurrent, vesicular mole, 375
Ghanaian school girls, menarche, cross-sectional study, 63
group B *Streptococcus,* amniotic fluid, vaginal colonization, delivery, new-born colonization, intrapartum cultures, 99
group B *Streptococcus,* infertility, endometrial flora, tuberculosis, age-related colonisation, 155
guidelines, breastfeeding, Thailand, fertility, ovulation, program, 335

Haemophilus influenzae, bacteremia, first trimester abortion, 385
health care research, prenatal care, developing country, perinatal mortality, twin diagnosis, breech presentation, 123
herpes simplex virus, abnormal vaginal cytology, late pregnancy, 231
heterotopic pregnancy, combined intratuerine and ectopic pregnancy, 271
high parity, obstetric hysterectomies, maternity care, 93
HIV antibody, AIDS, pregnancy, 395
human chorionic gonadotropin, trophoblast, progesterone, laminin, type IV collagen, 145
human labor, fetal electrocardiogram, fetal monitoring, fetal anoxia, catecholamines, fetal cardiovascular function, 109
hydatidiform mole, benign trophoblastic growth, neoplasia, recurrent, gestational trophoblastic tumor, vesicular mole, 375
hydrops, ultrasound, diagnosis, acephalic, acardiac twin, 179
hypertension in pregnancy, neonatal condition, IUGR, prematurity, 213
hypnotics, benzodiazepines-midazolam, antagonist, benzodiazepine antagonist-flumazenil, anesthesia, outpatient anesthesia, 69

Ilorin, maternal mortality, eclampsia, 117
immunological overload, redimentary horn pregnancy, uterine overdistension, pre-eclampsia, 367
incidence in Igbos, endometriosis, fertility pattern, 349
indirect Coomb's test, plasmapheresis, Rhesus isoimmunization, optical density, small volume plasmapheresis, 237
indomethacin, fetal distress, fetal resuscitation, varicella, 171
induction, prostaglandin E_2, labor, oxytocin, cervix, gel, 225
induction of labor, prostaglandin E_2, cervical injection, ripening the cervix, 221
infertility, ectopic pregnancy, recurrent ectopic pregnancy, fertility, 245
infertility, endometrial flora, tuberculosis, group B *Streptococcus,* age-related colonisation, 155
infertility, operative laparoscopy, adhesiolysis, pelvic adhesions, 249
infertility, uterine unification, first trimester abortion, obstetric outcome, 161
intensive care, labor, maternal and perinatal mortality, 317
intestinal obstruction, intussusception, abdominal hysterectomy, paralytic ileus, 279
intrapartum cultures, group B *Streptococcus,* amniotic fluid, vaginal colonization, delivery, new-born colonization, 99
intussusception, abdominal hysterectomy, paralytic ileus, intestinal obstruction, 279
isolation of *Candida albicans,* vaginal candidosis, oral ketoconazole, nystatin, rectal candidosis, 57
IUGR, hypertension in pregnancy, neonatal condition, prematurity, 213

knot volume, suture material, tissue reactivity, surgical knots, Dextran-70 (Hyskon), 355

labor, intensive care, maternal and perinatal mortality, 317
labor, prostaglandin E_2, oxytocin, cervix, induction, gel, 225
laminin, trophoblast, progesterone, human chorionic gonadotropin, type IV collagen, 145
late pregnancy, herpes simplex virus, abnormal vaginal cytology, 231
lecithin/sphingomyelin ratio, Rh isoimmunization, prolactin in amniotic fluid, pregnancy complications, respiratory distress syndrome, 313
lichen sclerosus, vulvar dystrophy, topical testosterone, topical progesterone, topical corticosteroids, vulvar atypia, 253
low risk population, cervical screening, Cytobrush®, contraceptives, 139

malignant mature teratoma, squamous cell carcinoma, 379
management information system, medical audit, primary health care, 33

maternal and perinatal mortality, labor, intensive care, 317
maternal and perinatal mortality, sickle cell anemia, morbidity, 51
maternal child health, family planning, medical audit, 27
maternal child health consultation, risk approach, perinatal surveillance, 23
maternal health care, antenatal care, traditional birth attentants, 329
maternal mortality, confidential enquiry, medical audit, 41
maternal mortality, eclampsia, Ilorin, 117
maternal mortality, medical audit, peer review, 47
maternal mortality, septic abortion, cervical carcinoma, cancer mortality, 343
maternity care, obstetric hysterectomies, high parity, 93
medical audit, confidential enquiry, maternal mortality, 41
medical audit, maternal child health, family planning, 27
medical audit, maternal mortality, peer review, 47
medical audit, peer reviews, perinatal statistics, 11
medical audit, perinatal mortality, perinatal survey, 5
medical audit, primary health care, management information system, 33
MEG, EEG, SQUID, pre-eclampsia, brain activity, central nervous system, 325
menarche, cross-sectional study, Ghanaian school girls, 63
method effectiveness, comparative low-dose contraceptive discontinuations, complications, 165
morbidity, sickle cell anemia, maternal and perinatal mortality, 51

neonatal condition, hypertension in pregnancy, IUGR, prematurity, 213
neoplasia, benign trophoblastic growth, hydatidiform mole, recurrent, gestational trophoblastic tumor, vesicular mole, 375
neoplasms, actinomycosis, cervix, 283
new-born colonization, group B *Streptococcus*, amniotic fluid, vaginal colonization, delivery, intrapartum cultures, 99
nystatin, vaginal candidosis, oral ketoconazole, rectal candidosis, isolation of *Candida albicans*, 57

obstetric and social implications, teenage pregnancy, 305
obstetric hysterectomies, high parity, maternity care, 93
obstetric outcome, uterine unification, first trimester abortion, infertility, 161
operative laparoscopy, adhesiolysis, pelvic adhesions, infertility, 249
optical density, plasmapheresis, Rhesus isoimmunization, indirect Coomb's test, small volume plasmapheresis, 237
oral ketoconazole, vaginal candidosis, nystatin, rectal candidosis, isolation of *Candida albicans*, 57
outpatient anesthesia, hypnotics, benzodiazepines-midazolam, antagonist, benzodiazepine antagonist-flumazenil, anesthesia, 69
ovulation, breastfeeding, Thailand, fertility, program, guidelines, 335
oxytocin, prior section, trial, uterine rupture, 205
oxytocin, prostaglandin E2, labor, cervix, induction, gel, 225

paralytic ileus, intussusception, abdominal hysterectomy, intestinal obstruction, 279
peer review, maternal mortality, medical audit, 47
peer reviews, perinatal statistics, medical audit, 11
pelvic adhesions, operative laparoscopy, adhesiolysis, infertility, 249
perforated carcinoma, colon, peritonitis, pregnancy, 371
perinatal audit, perinatal mortality, professional responsibility, 37
perinatal mortality, medical audit, perinatal survey, 5
perinatal mortality, perinatal audit, professional responsibility, 37
perinatal mortality, perinatal surveillance, risk approach, 17
perinatal mortality, prenatal care, developing country, health care research, twin diagnosis, breech presentation, 123
perinatal statistics, peer reviews, medical audit, 11
perinatal surveillance, risk approach, maternal child health consultation, 23
perinatal surveillance, risk approach, perinatal mortality, 17
perinatal survey, medical audit, perinatal mortality, 5
peritoneal injury, absorbable staples, adhesion formation, 361
peritonitis, perforated carcinoma, colon, pregnancy, 371
phospholipids, respiratory distress syndrome, diabetic pregnancies, amniotic fluid, 105
plasmapheresis, Rhesus isoimmunization, indirect Coomb's test, optical density, small volume plasmapheresis, 237
postpartum sterilization, tubal ligation, tubal ligation at cesarean section, regret after sterilization, 257
pre-eclampsia, MEG, EEG, SQUID, brain activity, central nervous system, 325
pre-eclampsia, redimentary horn pregnancy, uterine overdistension, immunological overload, 367
pregnancy, AIDS, HIV antibody, 395
pregnancy, perforated carcinoma, colon, peritonitis, 371
pregnancy complications, Rh isoimmunization, prolactin in amniotic fluid, respiratory distress syndrome, lecithin/sphingomyelin ratio, 313
prematurity, hypertension in pregnancy, neonatal condition, IUGR, 213
prenatal care, developing country, health care research, perinatal mortality, twin diagnosis, breech presentation, 123
primary health care, medical audit, management information system, 33
prior section, trial, oxytocin, uterine rupture, 205
professional responsibility, perinatal mortality, perinatal audit, 37
progesterone, trophoblast, human chorionic gonadotropin, laminin, type IV collagen, 145
program, breastfeeding, Thailand, fertility, ovulation, guidelines, 335
prolactin in amniotic fluid, Rh isoimmunization, pregnancy complications, respiratory distress syndrome, lecithin/sphingomyelin ratio, 313
prostaglandin, uterine hyperactivity, ritodrine, 177
prostaglandin E_2, cervical injection, ripening the cervix, induction of labor, 221

prostaglandin E_2, labor, oxytocin, cervix, induction, gel, 225
psychosexual aspects, virilization syndrome, 389
puerperal, scalds, burns, Wankan-Jego, Zaria, 133

rectal candidosis, vaginal candidosis, oral ketoconazole, nystatin, isolation of *Candida albicans,* 57
recurrent, benign trophoblastic growth, hydatidiform mole, neoplasia, gestational trophoblastic tumor, vesicular mole, 375
recurrent ectopic pregnancy, ectopic pregnancy, fertility, infertility, 245
redimentary horn pregnancy, uterine overdistension, immunological overload, pre-eclampsia, 367
regret after sterilization, tubal ligation, tubal ligation at cesarean section, postpartum sterilization, 257
renal allotransplantation and pregnancy, renal transplant recipient, cyclosporin A, 267
renal transplant recipient, cyclosporin A, renal allotransplantation and pregnancy, 267
respiratory distress syndrome, diabetic pregnancies, phospholipids, amniotic fluid, 105
respiratory distress syndrome, Rh isoimmunization, prolactin in amniotic fluid, pregnancy complications, lecithin/sphingomyelin ratio, 313
Rhesus isoimmunization, plasmapheresis, indirect Coomb's test, optical density, small volume plasmapheresis, 237
Rh isoimmunization, prolactin in amniotic fluid, pregnancy complications, respiratory distress syndrome, lecithin/sphingomyelin ratio, 313
ripening the cervix, prostaglandin E_2, cervical injection, induction of labor, 221
risk approach, perinatal surveillance, maternal child health consultation, 23
risk approach, perinatal surveillance, perinatal mortality, 17
ritodrine, prostaglandin, uterine hyperactivity, 177

scalds, burns, puerperal, Wankan-Jego, Zaria, 133
septic abortion, cervical carcinoma, maternal mortality, cancer mortality, 343
sickle cell anemia, maternal and perinatal mortality, morbidity, 51
small volume plasmapheresis, plasmapheresis, Rhesus isoimmunization, indirect Coomb's test, optical density, 237
squamous cell carcinoma, malignant mature teratoma, 379
SQUID, MEG, EEG, pre-eclampsia, brain activity, central nervous system, 325 surgical knots, knot volume, suture material, tissue reactivity, Dextran-70 (Hyskon), 355
suture material, knot volume, tissue reactivity, surgical knots, Dextran-70 (Hyskon), 355

teenage pregnancy, obstetric and social implications, 305
Thailand, breastfeeding, fertility, ovulation, program, guidelines, 335
tissue reactivity, knot volume, suture material, surgical knots, Dextran-70 (Hyskon), 355
topical corticosteroids, vulvar dystrophy, lichen sclerosus, topical testosterone, topical progesterone, vulvar atypia, 253
topical progesterone, vulvar dystrophy, lichen sclerosus, topical testosterone, topical corticosteroids, vulvar atypia, 253
topical testosterone, vulvar dystrophy, lichen sclerosus, topical progesterone, topical corticosteroids, vulvar atypia, 253
traditional birth attentants, antenatal care, maternal health care, 329
trial, prior section, oxytocin, uterine rupture, 205
trophoblast, progesterone, human chorionic gonadotropin, laminin, type IV collagen, 145
tubal ligation, tubal ligation at cesarean section, postpartum sterilization, regret after sterilization, 257
tubal ligation at cesarean section, tubal ligation, postpartum sterilization, regret after sterilization, 257
tuberculosis, infertility, endometrial flora, group B *Streptococcus,* age-related colonisation, 155
twin diagnosis, prenatal care, developing country, health care research, perinatal mortality, breech presentation, 123
type IV collagen, trophoblast, progesterone, human chorionic gonadotropin, laminin, 145

ultrasound, diagnosis, acephalic, acardiac twin, hydrops, 179
uterine hyperactivity, prostaglandin, ritodrine, 177
uterine overdistension, redimentary horn pregnancy, immunological overload, pre-eclampsia, 367
uterine rupture, prior section, trial, oxytocin, 205
uterine unification, first trimester abortion, infertility, obstetric outcome, 161

vaginal candidosis, oral ketoconazole, nystatin, rectal candidosis, isolation of *Candida albicans,* 57
vaginal colonization, group B *Streptococcus,* amniotic fluid, delivery, new-born colonization, intrapartum cultures, 99
vaginal delivery, assessment, breech, cesarean section, 241
varicella, fetal distress, fetal resuscitation, indomethacin, 171
vesicular mole, benign trophoblastic growth, hydatidiform mole, neoplasia, recurrent, gestational trophoblastic tumor, 375
virilization syndrome, psychosexual aspects, 389
vulvar atypia, vulvar dystrophy, lichen sclerosus, topical testosterone, topical progesterone, topical corticosteroids, 253
vulvar dystrophy, lichen sclerosus, topical testosterone, topical progesterone, topical corticosteroids, vulvar atypia, 253

Wankan-Jego, scalds, burns, puerperal, Zaria, 133

Zaria, scalds, burns, puerperal, Wankan-Jego, 133
